MBS Referral Criteria

Specialist Referral for CTCA *(Medicare eligible)*

One of the following criteria must be present
(please tick where appropriate):

- ☐ Patient has stable symptoms consistent with Coronary Ischaemia, is at low to intermediate risk of Coronary Artery Disease and would have been considered for invasive Coronary Angiography.
- ☐ Patient requires exclusion of Coronary Artery Anomaly or Fistula.
- ☐ Patient will be undergoing Non-Coronary Cardiac Surgery.

GP Referral for CTCA

- ☐ Consultation / Assessment for CTCA (Medicare eligible if meets MBS criteria)
- ☐ CTCA Only - GP Referral (Not Medicare Eligible)

CT Calcium Score

Please note that Medicare does not provide rebates for CT Calcium Score Tests.

Please contact Queensland Cardiovascular Group for advice if you have any questions regarding your patient.

Things to do before your CT appointment

- It is important to have a slow and regular heart rate for the scan.
- Fast for 2 hours prior to CTCA, but continue to drink water and stay well hydrated.
- Do not consume products containing caffeine for at least 4 hours prior to CTCA. This includes coffee, tea, chocolate, energy and soft drinks.
- No Viagra, Cialis, Levitra, or similar products for 5 days prior to CTCA.
- Avoid strenuous activities immediately prior to your appointment.
- Continue to take all other medications as usual on the day of the scan, unless advised otherwise.
- Recent U&E (blood test) is required to be attached if patient has known renal failure or is a diabetic.
- Please inform CT staff of any drug allergies
